Julia Xi Xi Xu

AI Solutions Engineer | AI Engineer

juliaxixi0712@hotmail.com Munich www.linkedin.com/in/juliaxixi-xu xuju-dev.github.io

EDUCATION

Master of Science, Computer Science 10/2023 – Present
Technical University of Munich Munich, Germany
- Specialization: AI, Machine Learning, Natural Language Processing
- Additional: Efficient Algorithms, Computer Vision

Bachelor of Science, Information Systems 10/2019 – 09/2023
Technical University of Munich Munich, Germany
- Thesis: Serious Games and AR in Clinical Healthcare (German Grade: 1.3)

WORKING EXPERIENCE

AI Solutions Engineer 10/2026 – Present
Workspacer GmbH Munich
- Design software solutions for client problems and adapt them to each client's processes
- Develop automation workflows, mostly in n8n
- Build custom solutions where off-the-shelf tools don't fit

Working Student in Software Engineering 06/2024 – 10/2026
Beissbarth Automotive Testing Solutions GmbH Munich, Germany
- Developed an MVP web application integrating product, inventory, etc.
- Automated internal business workflows using JobRouter
- Developed AI chatbot prototypes using n8n and LLM-based workflows

PROJECTS

Design and Evaluation of an LLM-based Intervention Agent for Delivering Context-Aware Just-In-Time Adaptive Interventions 08/2026 – Present
Master Thesis at TUM Health Informatics in collaboration with startup 2CHuB
- Designing and integrating a LLM-powered chatbot into an Android application
- Integrating LLM capabilities via Together AI APIs
- Backend development using Node.js and TypeScript
- Designing PostgreSQL database schema and implementing REST APIs

Assessing the Domain Gap in Learning-Based Vehicle Motion Prediction for Simulated and Real-World Racing Conditions 04/2025 – 09/2025
Interdisciplinary Project at TUM Autonomous Motorsport
- Adapted state-of-the-art learning-based motion prediction models
- Predicted multimodal trajectories for real-world autonomous racing
- Visualized model predictions for qualitative evaluation
- Containerized development using Docker

TECHNICAL SKILLS

Programming: Python | JavaScript | TypeScript | Java | C#
AI & Machine Learning: PyTorch | Hugging Face | LLM Integration | Prompt Engineering | Streamlit
Backend & Data: Node.js | REST APIs | PostgreSQL | Microsoft SQL Server
Tools: Git | Docker | JobRouter | n8n | Linux

AWARDS

OpenAI Side Challenge Winner (AI4GOOD Hackathon Africa 2026) 06/2026
TUM Social AI Club

LANGUAGES

German (Native) | **English** (C1) | **Chinese** (HSK 5) | **French** (B2)
